

# Test....Don't Guess

## Blower Door Test -

Depressurize the house to determine current air leakage rates and sources.

**Smoke Pencil** - Used in conjunction with the blower door to pinpoint air leaks and infiltration.

**Digital Pressure Gauge** - Able to measure fractions of a Pascal, it determines the proper Blower Door cfm flow and house depressurization. It's also used to ascertain any safety, back drafting or carbon monoxide dangers in combustion zones such as utility rooms.

**Thermal Imaging Camera** - Finds and records areas of poor or missing insulation, moisture issues, unwanted air passages and even insect infestations.

**Computerized Heat Loss/Gain Calculation** - Verifies the proper sizing of the heating and cooling equipment.

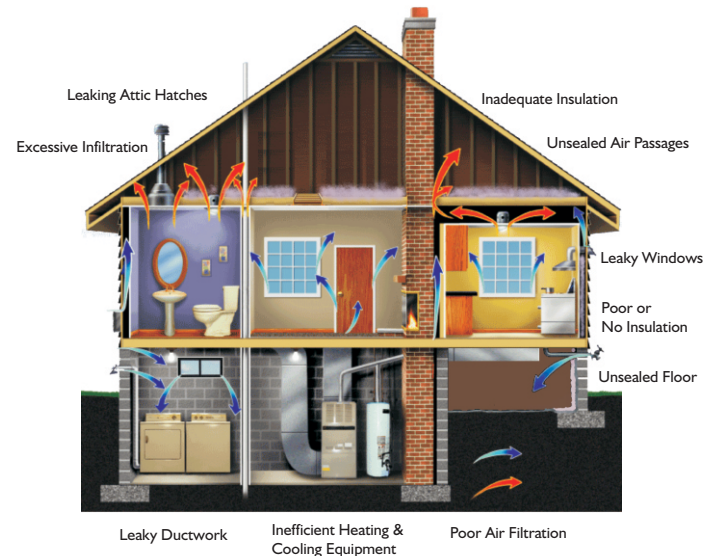

**Inspect the duct system & perform air flow analysis.**

**Evaluate existing heating and cooling equipment efficiency and performance.**

**Determine proper ventilation requirements and systems.**

**Search for other energy or comfort issues hidden in components such as plumbing or hydronic piping, HVAC controls and air filtration systems.**

# Your House Is A System

**One component affects all components!**

## Your One Stop Source for all of your Home Comfort & Energy Solutions!

### Insulation & Air sealing

- Attics
- Wall
- Basements
- Crawl Spaces
- Garages

### Duct sealing, modifications and repairs

### Heating/Cooling upgrades

### Air Filtration

### Water Heaters

### Thermostats

### Ventilation

### Solar

# Enjoy The Rewards

**SAVE up to 40% or more on your heating/cooling bills!**

**Track down and eliminate hidden leaks and energy thieves.**

**Improved winter & summer comfort.**

**Keep your home & family safe from the dangers of Carbon Monoxide.**

**Reduce allergens & pollutants. Enjoy a cleaner & healthier indoor environment!**

**SAVE EVEN MORE! Take advantage of government & utility insulation & air sealing rebates!**

***A New Level of Comfort!***

# Green Comfort Home Energy Audits

## Level I

- Home Insulation Evaluation
- Major Air Infiltration Inspection
- Heating, Cooling & Ventilation Evaluation
- Ventilation Systems Assessment
- Energy Saving Tips & Ideas

## Level II

- Blower Door Infiltration Test
- Infrared Thermal Camera Imaging
- Includes Level I Home Energy Audit

## Level III

- Computerized Air Exchange Evaluation
- Ductwork & Airflow Analysis
- Computerized Heat Loss /Heat Gain Calculation

*With my sincere thanks for your help and cleverness in solving the problem. You will certainly be my choice for the heating department in the future.*

Lorraine G.

*Your company was the first I called, the first to show for an estimate & during the entire process exhibited a "can do" professionalism.*

Mary A.

*....had the pleasure of doing business with your company for the first time, the lady answering the phone was most pleasant...technician arrived ON TIME, was friendly, helpful and knowledgeable, with all aspects of my furnace problem. It is refreshing to encounter such professional service.*

Peter R.

*Thank you for your fast, efficient, courteous manner in handling our heater problem. It is nice to know in todays world there are still a few Companies that care about their customers. Thnx again.*

Jane Z.
